

St. Timothy Middle School

Welcome to St. Timothy Middle School!

We are a faith based community with a diverse student body that offers a unique, secure, cheerful atmosphere of caring and respect. Our curriculum is rigorous and uses the best practices in education which include academic initiatives in research, writing, math, reading, study skills, technology and science labs to ensure our students are prepared for high school and all future pursuits. Beyond academics, we strive to instill thoughtfulness, cooperation and self-discipline which are encouraged and reinforced in our school community. We feel that each student is unique, and our faculty works hard to get to know each student and help the child develop strengths and conquer challenges. Middle school is a time of growth for children and their families as each child changes academically, physically, emotionally and spiritually. We are committed to educating the whole child during these formative years.

"We celebrate together, we learn together and we achieve greatness together."

-Emma F. Grade 7
